

VL3 Lift Out Security Post

A High Security Commercial Lift Out Security Post with Built-in Security Lock.

The Problem

- Theft of vehicles and Ram Raids are on the increase.
- Vulnerable Warehouse and Shutter Doors
- Financial Costs and Inconvenience
- Increased Insurance Premiums

The Solution

- VL3 Commercial Lift Out Security Post provides a simple, secure and cost effective method of protecting buildings and vulnerable doors. This bollard locates into a socket (supplied) embedded into concrete. The post is locked into position by a socket flap for a padlock to be used (not supplied).
- When the post is removed, the socket flap can be padlocked into position keeping the socket free from rubbish etc for when the post is next used.
- Hot dipped Galvanised and Powder Coated in Black with reflective stripes.

SECURITY INDICATOR = HIGH

Product Benefits

- Highly visible deterrent
